Beautifully handcrafted cast iron lights • Made in Ireland

HARTE 8 ►

▲ Our lights have been shining on at Mount Juliet for more than 30 years.

Welcome

Our family has been making the best quality outdoor lights here in New Ross, Co. Wexford for more than 30 years.

We are dedicated to quality and good design. We use cast iron for the majority of our lights as it is so strong and long lasting. They are painstakingly produced to original traditional designs to enhance any outside space.

Heritage is important to us but we also continually review and add to our range, including cutting edge modern pieces like our Bare lights which are made from galvanized steel.

We pride ourselves on our customer care service record and we look forward to having the opportunity to demonstrate it to you.

Yours faithfully,

Liz Harte
